Leadership Academy

## Preparing for Success in the World

➔ Study in Philadelphia with Field Trips to  
Boston, New York, and Washington DC

### Program Description

English Plus (E+) Leadership is an academic bridge program designed to prepare non-native English speakers primarily educated in Korea for success in the world. The program has two goals: First, to enable participants to expand their thinking to better understand and describe complex problems.

Second, to apply appropriate thinking processes and solution strategies to address complex problems involving conflict between ideas and outcomes which can lead to physical and emotional harm. The program consists of three integrated courses/classes in which English language thinking, speaking, and writing are applied to personal and organizational challenges.

The program requires 12-15 instructional hours of activities per week for three weeks. The education activities will apply reading/vocabulary, writing/grammar, as well as listening/speaking skills to individual and organizational challenges.
